By-Laws Applicable for the Dairy Section – 2025

1. This show is being conducted according to the MPI Biosecurity NZ Recommendations for shows & events (*October 2018*).
2. Due to Mycoplasma Bovis each exhibitor MUST provide their own water trough(s), and set of milking cups.
3. All cattle will be scanned off their transport as they arrive at the show – NO NAIT TAG, NO SHOW! The cattle will be sent home. All movements of cattle to and from the show are required to be recorded with Nait by the Manawatu A&P.
4. All cattle must be entered in the name of the bona-fide owner.
5. The date of birth of all cattle must be stated at the time of entry.
6. The age of cattle shall be computed as at 1st June.
7. **NB:** As the age of all cattle is determined from the 1st June in each year, all animals shall be deemed to be one year older on this date.
8. All pedigree cattle one year old and over must be registered with a recognised breed society and no bull or heifer under two years of age shall be eligible for senior championships.
9. Cows and heifers calving after entry has been made, may be transferred to the classes for which they have become eligible.
10. All cattle entered in groups or in special classes must be entered in at least one other single entry class if and for which they are eligible.
11. In all applicable classes of female stock, Judges to withhold awards for cattle which in their opinion, are barren.
12. Manawatu & West Coast A&P Assn reserves the right to amalgamate classes where there are insufficient entries.
13. The RAS NZ Dairy Ethics Committee Scanning Levy of \$5.75 per in milk dairy animal must be paid with your entry fees.

Information for Exhibitors

Rules and Regulations

The rules and Regulations as issued by the Royal Agricultural Society of New Zealand (Inc) for the governance and conduct of A & P Shows have been adopted by the Manawatu & West Coast A & P Association. It is the responsibility of exhibitors to be conversant with these rules. Copies of the Rules and Regulations are available on request.

- **‘In-Line Resolution Process’ Policy:** This Show supports the RAS ‘In-Line Resolution Process’ Policy system. An explanation of the rules under This process can be found at Our Rules, Regulations and Policies – Royal Agricultural Society New Zealand (ras.org.nz)

- **The RAS Resolution Process** can be found on the RAS website, as above. The principle behind the process is to deal with the matter as it comes to hand and in most cases it should be dealt with directly by the show. If the matter is in regards to a RAS official, the show may request the assistance of RAS Head Office as to how to deal with this in an appropriate manner.
- The show would prefer that **dogs** are not brought onto the grounds unless competing in the show. If you do bring a dog it MUST be on a lead and controlled at all times. The car racing circuit and its environs are strictly out of bounds for dogs.

General

1. All exhibits must be shown up to their respective ages and no two year old is to be shown as a three year old and no yearling is to be shown in a two or three year old class.
2. Exhibitors are requested not to tether stock in Judging Rings.
3. All cattle entered in the purebred classes must be entered, if one year old or over, in a Herd Book of the breed. If under one year of age, they must be eligible for entry. The names and pedigree of all such cattle must be stated on the Entry Form and if the exhibitor is not the breeder, the breeder's name must also be stated.
4. No stock shall be brought to the Showground's earlier than 1day prior the Show unless permission is given from the Chief Steward.
5. All possible processes and precautions will be in place to prevent/minimize direct cattle contact between herds.
6. Any Prize money will be paid by direct credit to the competitor's nominated bank account.
7. Commercial Breeders are eligible for In Milk and Dry stock classes, don't need to be registered with a Pedigree Breed Society however are not eligible for Supreme Champion

Auxiliary Equipment Not Permitted

In the interest of safety and tidiness in the Pavilion, Exhibitors will not be permitted to bring any items of electrical equipment into the Stadium except Blow Driers. This includes auxiliary milking plant, water heating equipment, cooking appliances etc.
(See electrical requirements below)

TB Status

All cattle entered for this Show must be from a current TB Clear Status Herd.
All cattle entered for showing must be from a herd that is current with its TB testing requirements. The Committee must be notified, within 48 hours of any TB testing which results in potential TB issues being identified after entries have been submitted. This will include TB testing of animals associated with those entering the show. Owners entering cattle must sign any declaration printed on the entry form.
All cattle entered that originate from a Movement Control Area, must be notified at the time of entry. These animals, if aged 90 days or older, must complete a clear pre-movement TB test within 60 days of their movement to the show. A copy of the Test Certificate must accompany all entry forms.

Animal Status Declaration (ASD) Form – this is a legal requirement for all cattle being moved. All animals entered must be accompanied in transit by a signed and dated ASD form showing a Clear TB Status and required TB testing is complete. Checks will be made for ASD forms on stock arrival.

INSPECTION: The Committee reserves the right to inspect at random any cattle for tattoos or identification to establish TB Status.

NAIT: A NAIT approved RFID tag is mandatory for all movements of cattle, including day old calves. NAIT approved RFID cattle tags are white only. Please do not remove tags if cattle are identified with Animal Health Board or MINDA tags. A secondary tag is no longer required under the NAIT scheme.

All animals being exhibited at the Show come under the standard identification and ASD regulations. It is the livestock exhibitor's responsibility to record all animal movements with NAIT 48 hours prior to leaving the farm/property for the Show and then within 48 hours of returning to the farm/property from the Show. *(see MPI Biosecurity advice document for showing of cattle below).*

Manawatu A&P's NAIT number is: 443920

MYCOPLASMA BOVIS Biosecurity New Zealand

advice for cattle-showing events

1 Keep cattle from 2 Sterilise milking 3 Ensure full NAIT different herds separate. equipment between compliance.

uses.

1 Keep cattle from different herds separate

M. bovis is mainly transmitted via nose-to-nose, prolonged contact – the type of contact observed within herds. Although the chance of contact prolonged enough to transmit M. bovis is low at A&P Shows, it pays to eliminate the risk entirely to give confidence to exhibitors that their stock is safe.

Stabling

Housing animals from the same farm in separate solid wall pens is sufficient separation to avoid nose-to-nose contact. Alternatively, in the absence of barriers, animals should be tethered with at least two metres between herds, whilst also ensuring they have access to food and water.

Transport

Transportation is a stressful event for animals and stress can cause shedding of the M. bovis bacteria into milk and nasal secretions, causing them to be more infectious and therefore more likely to spread disease. Asking exhibitors to cart animals of different herds separately will eliminate the risk of spread of M. bovis between herds during transport. Note that animal welfare obligations still stand; neither sick nor heavily pregnant animals should be transported. Exhibitors can download the Fit for Transport app for a quick reference guide, available for download at the Apple Store and Google Play.

2 Sterilise milking equipment between uses

The sterilisation of milking equipment between uses eliminates the risk of transmitting M. bovis via infected milk. It is also important to have adequate spacing between animals of separate herds when in the milking shed to avoid nose to nose contact.

The raw milk collected should not be fed to calves not of that cow. Raw milk should either be discarded, pasteurised according to industry standards, or acidified

Wash bays

Wash bays should reside on a concrete pad and have adequate drainage. Provided this spacing condition is satisfied, there should be no cause for concern. MPI has lowered the risk rating of effluent now that we know more about the nature of the bacteria. M. bovis rarely lives in the lower GI tract of the animal and, coupled with the fact that it does not survive once exposed to air and UV light, this makes for a very low chance of transmitting the disease through effluent, especially if the run-off is collected and carried away in drains. However, effluent can be the cause of transmission for other diseases such as Johne's disease so easy mitigation can include removing effluent from thoroughfares and laying down straw. M. bovis cannot be transmitted through waterways, nor is it windborne.

Show ring and grand parade

Cattle should be haltered at all times when not stabled including when in the show ring and grand parade. Keep animals from mingling where possible and consider separate entry and exit points to reduce traffic at thoroughfares where contact could take place.

using citric acid. Information can be found here: www.biosecurity.govt.nz/protection-and-response/mycoplasma-bovis/advice-on-mycoplasma-bovis/advice-for-calf-rearing

A list of approved and recognised dairy maintenance compounds can be found on MPI's website: www.mpi.govt.nz/processing/maintenance-compounds/dairy-maintenance-compounds/

3 Ensure full NAIT compliance

Keeping complete and accurate NAIT records is extremely important to the success of the *M. bovis* eradication Programme and exhibitor compliance with the NAIT (National Animal Identification and Tracing) Act 2012 is law. All exhibits must have readable NAIT tags including calves, the tags must also be accurately registered to a PICA (Person In Charge of Animals) and location. When a PICA obtains NAIT tags, they have to be registered online to include details of the animal such as age and breed, once the tag has been inserted into the ear.

As well as tag compliance, exhibitors will need to record movement to and from the event. This can be done up to 48 hours before show day and a tick box is available to indicate that the animal will be going home after the show which automates the sending movement back to the home farm – the NAIT contact centre can assist with this: [0800 482 463](tel:0800482463).

Organisers may wish to obtain a list of RFID numbers of animals the exhibitors are intending to bring to the show (often the final list isn't decided upon until the

Contact information

If exhibitors want instruction or assistance with NAIT, they can call the contact centre on 0800 482 463, Monday to Friday, 7am to 6pm. They can also arrange transfer over the phone 48 hours before movement to the show grounds.

If organisers or exhibitors want more information on *M. bovis* or the eradication Programme, please:

Email: Mbovis2017_Liaison@mpi.govt.nz

Phone: 0800 00 83 33

Appendices

1. Minimising the risk of *M. bovis* at cattle shows and events fact sheet.
2. The acidification of milk with citric acid guidelines.
3. Example data capture form.

day of the show so a list of possible attendees would work also) along with other exhibit and exhibitor information.

As an extra measure, organisers could arrange for the cattle to be scanned with a NAIT scanner as they are unloaded at the showgrounds.

This way, organisers have a record of animals that attended the show that can be cross-referenced with their records and also be provided to NAIT to ensure the sending movement to the show has been accurately recorded. If any details need correcting, NAIT will contact the PICAs directly.

Understandably, organisers will be bound by what is feasible and practical within their operation. The most important thing is being confident that exhibitors are compliant with NAIT and that they will accurately record movement to the show.

MYCOPLASMA BOVIS

Minimising the risks at shows and events

Mycoplasma bovis is a bacterial disease that only affects cattle. The main way *Mycoplasma bovis* spreads is through close and prolonged contact between cattle; and calves drinking milk from infected cows.

The risk of *Mycoplasma bovis* spreading at A&P shows, calf days, rodeo and other events where cattle are present is quite low, but there is still a risk wherever cattle may mingle.

Event organisers need to take these risks into account and manage mitigations when deciding if to hold their event while *Mycoplasma bovis* is being eradicated in New Zealand.

Animals on known infected farms are under movement control, and cannot be moved without MPI's permission. However, through efforts to eradicate this disease we are still tracing movements of animals, and we expect there are some we haven't reached and tested. So, it's important you take extra precautions to reduce your chances of spreading *Mycoplasma bovis*.

What can exhibitors do?

- Animals on properties under any suspicion of exposure to *Mycoplasma bovis* should not be transported to shows and events.
- Animals showing clinical signs of **ANY** disease should not be transported to shows, as per normal biosecurity practice.
- Make sure your cattle are tagged and registered with NAIT.
- Keep your NAIT movements up-to-date and accurate and record movements to and from the event. Guidance is available on: naait.co.nz
- Practice good on-farm biosecurity and clean and disinfect outerwear, boots and equipment before attending a show or event. On your return, clean and disinfect again before taking outerwear, boots and equipment back onto your farm. For more information refer to the guidance on:

mixed as per manufacturer instructions.

- It's an opportunity to teach people about on-farm biosecurity. There's more on: www.mpi.govt.nz/bovis

mpi.govt.nz/bovis

What can show and event organisers do?

Ensure that exhibitors and participants are aware of your biosecurity and hygiene recommendations and their NAIT obligations.

- Animals without a NAIT tag should be denied entry and non-compliance reported to MPI.
- Ensure stalls are cleaned out before you put cattle in them, and after cattle are removed. Where possible, don't use the same stalls for cattle belonging to different exhibitors.
- Provide hand sanitiser for anyone likely to be handling the heads of animals from different owners.
- Any milking equipment used at the show should be cleaned and disinfected between uses on animals from different exhibitors.
- Give animals individual water – do not allow animals to drink from shared troughs.
- Best practice is to separate animals of the same species where possible, to prevent the spread of any disease. This can be by separating animals with walkways, using empty pens, and using outriggers or double barriers where animals are in adjacent pens.
- Don't keep animals in show pens for long, to reduce stress and nose-to-nose contact.
- Keep animals from different herds separate and avoid their nose-to-nose contact.
- Ensure pens are secure, and that when animals are out they are tethered or being securely managed by somebody who is strong and skilled enough (this could mean supervising children with calves).
- At rodeos when cattle are using the chute, disinfect all surfaces between each use with approved agricultural disinfectant,

Health & Safety

The Manawatu A&P Association is required to conform to the **Health and Safety at Work Act 2015**; therefore you are required to carry out your work or undertaking on the Manfeild Park premises to comply with this Act. As a show exhibitor at this venue you are obligated to accept responsibility for ensuring a safe showing venue within the focus of the Act. As a user of these facilities, you are required to manage and supervise all your activities and live animal exhibits to ensure the good Health and Safety of all people involved in the show, at all times.

Health & Safety Specific Requirements:

- All vehicles, caravans and floats requiring power must have a Warrant of Electrical Fitness that meets legislation standard AS/NZS 3001.
- Any and all electrical equipment, including extension power leads, must be tested and tagged with a current tag.(Standard AS/NZS3760)
- Vehicles and leads may be checked during the show, on a strictly 'user pays' basis.
- Anyone bringing in, or in charge of the use of any motorized bike, two, three or four wheeled, must be trained in its use and must wear a safety helmet at ALL times when using it.
- As Manfeild Park is a public place, bike riders must have a current Drivers' Licence.
- Quad bikes must not carry passengers, and no-one under the age of 16 is permitted to operate a quad bike.
- Motor bike riders must observe a speed limit of 15 k/p/hour at all times, anywhere on the showgrounds.

Disclaimer:

- By entering to compete at the Manawatu A&P Show, you are accepting and agreeing to abide by the Rules of the Royal Agricultural Society of NZ and the Manawatu & West Coast A&P Association.
- You are also indemnifying the Manawatu & West Coast A&P Association against damage(s) or injury occurring while you are on the showgrounds or its environs to participate in the Show.
- The Manawatu A&P Association shall not be responsible for any loss or damage (inter alia) caused through disease or infection however arising. Each exhibitor shall be deemed to have guaranteed to the Manawatu A&P Association and have given warranty that to the best of their knowledge, each exhibit entered and brought to the showgrounds is free of any contagious or infectious disease.

Stalling Of Entries

In the event of catalogued entries not being exhibited at the Show, the Chief Steward shall have the right to re-allocate such stall spaces.

NB: IT IS A REQUIREMENT OF ALL EXHIBITORS TO KEEP THEIR AREA CLEAN AND TIDY THROUGHOUT THE DURATION OF THE SHOW.

NO STRAW is to be brought onto the grounds. Sawdust or woodchip bedding will be available for all animals. Feed receptacles will not be provided. Exhibitors wishing to feed meal or dry stock foods should bring suitable containers with them. Water taps are located in convenient positions.

Limitation on Entries

Shows in recent years have attracted progressively increased livestock entries and while it will probably not be necessary, the Committee reserves the right to limit entries. Exhibitors are directed to the conditions and by-laws set out in the Schedule. If any entry has to be refused, entry fees will be refunded in full.

Vehicle Parking

Exhibitors please enter via Kawa Kawa Road, Fielding, Gate 2, and park behind the stadium.

Entry Fees:

\$15 per Class (no Membership discounts)

Holstein Friesian

SATURDAY 1st November 2025

Stadium – Starting 10.30am

Trophies & Prizes

The Mokoia Holstein Friesian Perpetual Trophy

Best Uddered female in milk.

Radley Holstein present Rosettes for the Best Uddered Heifer or Cow in classes 7114 to 7119.

Stewards: TBC

- a. Competing animals must be the bona-fide property of the exhibitor. Imported stock must have been in their possession at least three months prior to the date of entry.
- b. Animals entered for this competition must be entered in other classes for which they are eligible.

IN-MILK CLASSES

7114 Heifer In Milk, born since 1st June (2 Years)

7116 Cow In Milk, born since 1st June (3 Years)

Intermediate Champion & Reserve

7118 Cow, in milk, 4 & 5 year olds

7119 Cow, in milk, 6 years and over

Senior Champion & Reserve

Best Uddered Heifer or Cow

(Best Uddered winners from classes 7114 to 7119)

DRY STOCK CLASSES

7121 Heifer, born 1st June to 31st July (Senior Yearling)

7122 Heifer, born since 1st August (Junior Yearling)

7124 Heifer Calf, born 1st June to 31st July (Senior Calf)

7125 Heifer Calf, born since 1st August (Junior Calf)

Junior Champion & Reserve

7127 Bull Calf, born since 1st July

Supreme Holstein Friesian

Champion and Reserve Champion

Colour Breeds

Jersey, Ayrshire, Shorthorn, & Brown Swiss combined

SATURDAY 1st November 2025

Stadium – to Follow Holstein Friesian Section

Trophies & Prizes

The Clear Field Challenge Cup: First two year old Jersey Heifer in class 7130

Stoney Creek Cup (Donated by Mr & Ms G.B Taylor)

Most points accumulated by Jersey exhibitor in the colour breeds in-milk section

Classes 7130, 7132,7134,7135,7136

Bell Pioneer Cup

Best female Shorthorn in milk any age (highest placed shorthorn in classes 7130 to 7136)

The Charles E.C Webb Perpetual Challenge Trophy

Highest Placed Ayrshire heifer from classes 7138 to 7142

Rosettes for the Best Uddered Heifer or Cow n class

7130 to 7136.

Stewards: - TBC

- a. Competing animals must be the bona-fide property of the exhibitor. Imported stock must have been in their possession at least three months prior to the date of entry.
- b. Animals entered for this competition must be entered in other classes for which they are eligible.

IN MILK CLASSES

7130 Heifer in Milk, born since 1st June (2 Years)

7131 Cow in Milk, born since 1st June (3 Years)

Intermediate Champion & Reserve

7134 Cow, in milk, 4 & 5 year olds

7135 Cow, in milk, 6 years & over

1736 Senior Champion & Reserve Champion Best Uddered Heifer or Cow

(Best Uddered winners from classes 7130 to 7136 to parade)

DRY STOCK CLASSES

- 7138 Heifer, born 1st June to 31st July (Senior Yearling)
7139 Heifer, born since 1st August (Junior Yearling)
7140 Heifer Calf, born 1st June to 31st July (Senior Calf)
7141 Heifer Calf, born since 1st August (Junior Calf)

Junior Champion & Reserve

- 7143 Bull Calf, born since 1st July

SUPREME CHAMPION COLOUR BREED

(Intermediate, Senior & Junior Champions to parade)

Dairy All Breeds

SATURDAY 1st November 2025

Stadium – To Follow Breed Classes

Trophies & Prizes

Ron Bones Memorial Cup – All Breeds 2 year old Heifer

Ron Hill Memorial Trophy – All Breeds 3 year old Heifer

Conway Cup – Most points for exhibitor across all sections

Alfa Laval Separator Cup – Champion All Breeds Cow

7170 to 7174.

Stewards: - TBC

- Competing animals must be the bona-fide property of the exhibitor. Imported stock must have been in their possession at least three months prior to the date of entry.
- Enter on the Day – 1st, 2nd & 3rd place getters from Holstein Friesian & Colour Breeds Sections qualified to enter.
- The All Breeds Classes will be judged by a panel of Judges from each of the breeds. d.

IN MILK CLASSES

- 7170 Heifer in Milk, born since 1st June (2 Years)
7171 Cow in milk, born since 1st June (3 year old)

Intermediate Champion & Reserve

- 7173 Cow in Milk, 4 & 5 year olds
7174 Cow, in milk, 6 years and over

Senior Champion & Reserve

Best Uddered Heifer or Cow

(Best Uddered All Breeds winners from classes 7170 to 7174 to parade)

DRY STOCK CLASSES – *(following Breed Classes)*

- 7178 Heifer, born 1st June to 31st July (Senior Yearling)
- 7180 Heifer, born since 1st August (Junior Yearling)
- 7182 Heifer Calf, born 1st June to 31st July (Senior Calf)
- 7184 Heifer Calf, born since 1st August (Junior Calf)
- 7185 Heifer Calf, born Since 1st January (Autumn Calf)
- 7186 Commercial Heifer Calf, born since 1st June

Junior Champion & Reserve

- 7187 Bull Calf, born since 1st June

SUPREME CHAMPION DAIRY EXHIBIT OF THE SHOW -

COMMERCIAL CLASS - 7190

This is for any Dairy Breed, non-registered with a breed society.

This class is for any person who wishes to show Dairy Cattle or, on from Boys and Girls Clubs that no longer qualify.

Prize Ribbons only.

Boys & Girls Classes

SATURDAY 1st November 2025

Stadium – Starting 10.30am

Please Note: Separate entry form for Boys and Girls classes.

(Entry Form at rear of this Schedule or online at www.manawatushow.co.nz; OR f=manawatuandp)

- Entries will also be taken on the day, in the stadium, from 9.00am. *We would encourage prior entry to make the morning easier for all concerned.*
- Entry Fee: \$5.00 per child (irrespective of number of classes).
- Prize Money: 1st - \$10 2nd - \$8 3rd - \$6 4th - \$4 5th - \$2

NB - These classes are NOT conducted under the regulations governing Calf Club competitions at schools.

A child shall not exhibit more than one animal in any class in this section.

The Champion and Reserve Champion Calf for which the Association's sashes will be awarded will be judged from calves placed 1st and 2nd in their classes:

SECTION A – Open to Exhibitors years one to five

7606 Best Turned Out Calf, appearance of Calf and Child to be judged

7608 Best Led Calf

SECTION B – Open to Exhibitors years six to eight

7620 Best Turned out Calf, appearance of Calf and Child to be judged 7622

Best Led Calf

TYPE CLASSES – Sections A and B combined

7624 Best Light Breeds Calf

7626 Best Heavy Breeds Calf

7628 Best Beef Calf

CHAMPION & RESERVE CHAMPION CALF, Section A

CHAMPION & RESERVE CHAMPION CALF, Section B

Boys' & Girls' Classes

Entry Form

1st November 2025

Please ensure that ALL sections are completed legibly!
